## ELECTION HELD TODAY

He Received 23 More Votes Than Were  
Necessary—His Election Greeted With  
Ringing Cheers When Announced  
in National Assembly.

Versailles, France, Jan. 17.—M. Clement Armand Fallieres has been elected president of the French republic succeeding M. Loubet.

The French Senate and Chamber of Deputies, constituting the national assembly met today in the palace here to elect a new president. The balloting was conducted with great dignity. M. Fallieres was elected on the first ballot, receiving 449 votes to 371 for M. Doumer. The majority required for election according to the number of senators and deputies in attendance was 426.

M. Antonin Dubois, vice president of the Senate made the official announcement to the national assembly that M. Fallieres had been elected and the declaration was received with ringing cheers.

"GO AND TELL MY WIFE,"  
DECLARED THE WINNERJohn Burns Re-elected at Battersea and  
Alfred Lyttleton Defeated at War-  
wick—Great Demonstration Over  
the Former.

London, Jan. 17.—John Burns, president of the local government board, has been re-elected at Battersea by a majority of 1,800. Alfred Lyttleton, former secretary of the colonies, was defeated at Warwick.

The commercial heart of the kingdom remained faithful to the unionist cause, the city of London returning A. G. H. Gibbs and Sir Edward Clarke with enormous majorities, approximately 10,000 over their liberal opponents. Some of the other conservative London districts, like Westminster and provincial seats like Oxford, where the working class population is small managed to retain unionist representatives.

There was a great scene at Battersea last night after the poll showing John Burns to be elected was announced. Mr. Burns stood on the balcony of the town hall on Laverham Hill, where he resides, wildly waving his hat, while fully 20,000 of his supporters were along the hill as he cheered. It was a long time before Mr. Burns could get a hearing to announce the figures. Then he exclaimed "Now, go and tell my wife." A few minutes afterwards Mr. Burns was escorted shoulder high through the Battersea streets by thousands of workmen.

Walter Hume Long, former chief secretary for Ireland, who lost his seat at South Bristol Monday, was yesterday elected to the unionist seat for South Dublin, where the unionist candidate had withdrawn in his favor.

Siege on Sunday.

Glasgow, Jan. 17.—The Herald's St. Petersburg correspondent wires that a state of siege will be declared in that city on Sunday, in anticipation of trouble then and on Monday, the anniversary of "Red Sunday," when so many workmen were shot down in the street. The municipality has organized an ambulance corps in expectation that the revolutionary outbreak will occur at that time.

## SATISFACTORY PROGRESS.

Toward a Conference Over the Proposed  
Coal Settlement.

Indianapolis, Ind., Jan. 17.—President John Mitchell's announcement yesterday afternoon that "satisfactory progress is being made toward a conference between the mine workers and the operators of the anthracite region" drew round after round of applause from 1,200 delegates assembled in Tomlinson hall for the seventeenth annual convention of the United Mine Workers of America. There was no further explanation in regard to the anthracite situation from President Mitchell, but the word of their chief was enough and when, a few minutes later, delegates came in from the streets with a rumor that President Thomas of the Lehigh Valley company was reported to have said that the anthracite operators had agreed to hold a conference with the committee appointed by the mine workers in their Shamokin convention, the enthusiasm knew no bounds.

In his annual address, President Mitchell, in speaking of the policy to be pursued by the miners in the coming joint conference with the local operators, reviewed briefly the history of recent events in the coal trade. Since last spring, he pointed out, there had been a gradual improvement both in prices and tonnage and he asserted that "if the activity in the iron market, in the railroad, industrial and commercial affairs of the country, is any barometer by which future conditions may be foreseen, the prospect of continued prosperity in the mining industry seems assured."

## NO PROSECUTION YET.

Against Insurance Companies Which  
Were Recently Probed.

New York, Jan. 17.—The unofficial but positive announcement has been made that State Attorney General May has consented to postpone any proposed legal action he might have in mind against the Mutual Life Insurance company, the New York Life Insurance company and several other companies whose affairs were probed by the legislative insurance investigating committee until the so-called house cleaning committee within the companies have finished their tasks and the character of the reforms put into force by them is known.

It was further stated that Attorney General May had conferred with Governor Higgins in Albany regarding the matter and the governor had agreed to the course of action proposed. It is said that if Mr. May is not thoroughly satisfied with the work of the several house cleaning committees, he will proceed with the suits against the Equitable Life Assurance society, brought some time ago, as a guide for other actions. The attorney general is said to have been actuated by the hope that the results sought to be obtained through legal proceedings, the restoration of funds alleged to have been misappropriated, etc., might more speedily be secured through the action of the companies themselves rather than wait upon the tedious delays of the courts.

## NEW MOVE IN STRIKE.

Electrotypers Will Not Use Type Set by  
Nonunion Men.

New York, Jan. 17.—A new move was made in the job printers' strike here yesterday, when the electrotypers and electrotypers were ordered by the union officials not to make any plates from nonunion set type. In accordance with these instructions, the electrotypers employed in five of the big printing concerns of the city who had adopted the "open shop" went on strike. The officers of Typographical Union, No. 6, which is fighting for the eight-hour day and the "closed shop" declare the strike of the electrotypers and electrotypers in the big concerns will hasten the climax of the strike.

The typographic issued a statement last night in which it treats of the latest phase of the strike and declares that 100 nonunion electrotypers and electrotypers have applied for positions at the high wages paid here. The typographic declares that the new strike will cause no inconvenience.

The American Bible House, an independent concern, last night signed the agreement for the eight hour day.

## UNIONISTS MORE HOPEFUL.

Expect Gains in Remainder of the Elec-  
tions—Polling Heavy Vote Today.

London, Jan. 17.—The unionist press this morning takes a more hopeful view of the political campaign. It is inclined to consider that the vote has passed and that future policies will show steady unionist relief. The fact that the unionists retained five important seats in Liverpool and several in London is held to show that all has not been lost and the pollsters at Birmingham today are looked forward to with the keenest interest. An effort is made to demonstrate that the out and out reformers have done better than have the nebulous followers of the Balfourian policy, and this raises the hope of the measure success of the policy of Joseph Chamberlain.

## TREASURER IS WANTED.

Boston Bank Official Is Said to Be in  
Flight.

It is stated that he will return to Boston as soon as he has ascertained whether he can find a purchaser for some of the company's assets.

This Afternoon.

The arrival of the commission was unannounced. The commission consists of Gen. N. G. Williams of Bellows Falls, chairman, Hon. C. H. A. Stafford of Morrisville, and H. P. Brigham of Bakersfield. ## RESTRAINT OF TRADE.

Is Charged in Connection With Coal  
Trade in Rutland.

Rutland, Jan. 17.—It is understood that the controversy over the price of coal in this city will result in the matter being brought before the interstate commerce commission on the plea of restraint of trade. The Combination Coal store has been selling coal, delivered, for \$3.99 a ton. This is considerably below what the regular dealers charge. It is stated that the New England Coal Dealers' association was appealed to by local coal dealers with the result that the shippers at the coal mines did not fill any more orders to the Combination Coal store.

It is also stated that a letter was written to the local concern with reference to an alleged protest on the part of Rutland coal dealers of the cut in prices and that a uniform price be charged. The dry goods concern refused to do this, it is said, claiming the right to sell at any price they desired. After this shipments of coal to the dry goods firm ceased, and the reason seemed to be significant. The people are much concerned in the proposed movement to make the subject one in which a precedent will be established in relation to restraint of trade. The parties interested directly have nothing to say, but do not deny that it will be taken before the interstate commerce commission.

SENATOR DEPEW GETS  
A SOLID SUPPORTSenator Brackett's Resolution Request-  
ing the Senator's Resignation  
Was Turned Down in Albany  
Yesterday Afternoon.

Albany, Jan. 17.—The State Senate yesterday afternoon defeated by a vote of 34 to 1, the fourteen democratic senators having been accused from voting Senator Brackett's resolution requesting the resignation of U. S. Senator Chauncey M. Depew. Brackett alone supported the resolution. Senator Armstrong was absent, but telegraphed he would vote in the negative if present. This action followed a long debate, opened by Mr. Brackett in a speech of an hour and a quarter, in which he scathingly attacked the junior senator, with an incidental denunciation of the senior senator, Thomas C. Platt. Depew was defended especially by Senators Malley, Cassidy, Raines and Coggeshall.

Senator Brackett declared he had introduced the resolution in obedience to what he believes a solemn demand of the right thinking people of the state. Asserting there is lack of confidence in the senator named caused by recent disclosures, Mr. Brackett stated the resolution respectfully and without denunciation, requesting the resignation of Senator Depew. He declared that although he had voted for Depew, he had been opposed to the re-election of Depew to the Senate because he had believed he was unfit for the office and represented unwelcome forces. He declared that any senator who ought to blush for shame at the representation of his state in the United States Senate by either of the present senators. He disclaimed the slightest responsibility for Platt's election, but declared he would support any other senator's resolution requesting him to resign.

**MGR. DALEY'S OPINION.**

Says That Barre and Montpelier May  
Have Team Each.

## MGR. DALEY'S OPINION.

Says That Barre and Montpelier May  
Have Team Each.

Burlington, Jan. 17.—A. W. Daley, manager of last season's champion latitude city base ball team, while in this city last evening with his Twin City bowlers, had time to talk some base ball with local enthusiasts. He said the sentiment over his way was for the Northern League to join the national league, which would mean strictly professional base ball. The salary limit must be a moderate sum and must be lived up to by all the clubs. If this is done there is no doubt but that there will be a team from Montpelier-Barre and perhaps a team from such city. He believes there are enough eligible cities to make a six team league a safe proposition providing it is managed under the national agreement.

In his visit to other Northern League cities with his bowling team, Mr. Daley will continue to spread the good word from the Twin Cities and also size up the base ball situation in Pittsburg and Rutland, as well as Burlington.

BAILEY WAS  
BATTEREDFace Disarranged and One  
Shoulder Knocked Out

## IN COWARDLY ATTACK

His Assailant, Who Will Be Arrested,  
Is Said to Have Been in  
an Intoxicated Con-  
dition.

Northfield, Jan. 17.—Roy Bailey, a blacksmith employed at the shops of the E. B. Ellis Granite works, and formerly of Barre, was attacked by a drunken man last night and as a result this morning has a bad looking face and a broken shoulder blade. He went to the doctors last night to have the wounds dressed and found that his shoulder blade was broken by the force of the blow which knocked him to the ground.

Mr. Bailey says that he can see no cause for the attack upon him, unless it be that the man, in his drunken state, mistook him for someone else. They had been attending a special meeting of the union in village hall and were at the foot of Central street hill, when the man said something to Bailey, who not understanding what was said, turned to one of the other men to ask what was said to him, when he received the severe blow over the right eye that sent him to the ground. Bailey got up but was knocked down again several times.

There were several scoundrels at the scene and none of them tried to stop the big drunken fellow from hammering the little man to a jelly.

Papers are in the hands of the police officers for the arrest of the drunk in behalf of the state. Bailey, who will be unable to work for three months, will afterwards have the man taken for private damage.

The assailant is said to have been William Ewen, the wrestler, who tried conclusion with Ross at Barre last summer. Ewen is missing and the police are looking for him.

In court this morning three of them admitted their first offense and got fifteen days. They were Patrick Higgins of Burlington, William Hall of Watfield and Fred Richard of Bolton. Walter Burke, the fourth of the trio, was shocked to think that he was charged with a second offense and demanded trial. He was found guilty, and after being sentenced took an appeal.

## CLEARED \$21.27 IN MONTH.

From 38 Hens—Mr. Mitchell Wants to  
Know If Anyone Can Beat It.

Editor of the Times: Believing that I have the champion winter laying hens of Washington county, I wish to give the record of my flock of White Wyandottes for the last two months, during which eggs have been retailed at 36 to 40 cents per dozen.

The flock consists of two old hens and 36 pullets. During the month of November they laid 433 eggs, in December, 506 eggs. The market value of these eggs was \$29.87. The cost of feed approximately \$8.40.

To show that they were still doing business, these 38 hens started the new year by laying 30 eggs and followed it by selling out 21 on the next day and are still doing business at the same old stand.

The pullets were all from the record-making hens of last year, that averaged 156 eggs per hen for one year. If anyone has a better record for these two months let us hear it.

## ASLEEP IN A CLOSET.

Young Boy Had a Hard Pillow Last  
Night.

A boy whose home is in this city decided last evening that he would strike out for himself, after the show last evening, which he attended. He wandered up and down Main street for a while, not knowing what to do with himself. At last he went into the Eastman block and shut himself into the lavatory, intending to pass the night there. Two young men who roamed in the building discovered that someone was in the room who had no business there. One of them climbed in through the transom and found the lad asleep on the floor. He was roused out and compelled to pass the night elsewhere. The boy's parents got on the track of him this afternoon and induced him to come home.

## BILL FINALLY PASSED.

Philippine Tariff Measure Slips Through  
the National House.

Washington, Jan. 17.—The Philippine tariff bill was passed by the House yesterday substantially as it came from the ways and means committee. The vote was 258 to 71. It was made subject to the same tariff as sugar and tobacco, 25 per cent of the Dingley rates, and one or two changes were made as to language.

This result was attained after the president's most strenuous day of the present congress.

The many amendments which were introduced and went to pieces in the storm of debate and against the rock which the house committee on rules constituted, left much legislative wreckage and many records only useful for future political purposes.
